**Subject: Letter of appreciation extended to Dr. Garnik, Head of Radiology Department, (Foreign Residence)**

**Dear Honorable Rector,**

I take great pleasure to inform you about my experiences with Dr. Garnik, who has been so kind, helpful, professional and sincere and simply a gentleman of highest caliber, it is very much part of my culture and inherent in our society( New Zealand) to look back at such individual and certainly appreciate the kindness by retrospectively offering of much thankfulness and best regards.

As I have still a few months remaining of my studies I felt necessary to highlight what I have experienced throughout my engagement as one of his residents in Radiology which has been nothing but professionalism and kindness, understanding and who always wishes to help and support his residents.

it would be greatly appreciated if your good offices could kindly pass on my gratitude to Dr. Garnik.

Yours Sincerely

A handwritten signature in blue ink, appearing to read 'M. Gharebaghy', written in a cursive style.

**Mahnaz Gharebaghy, Resident in Diagnostic Radiology, Final year**
