

## Questions for state examination on Internal Medicine 2024

### Gastroenterology and Hepatology

1. Gastroesophageal reflux disease: risk factors, clinical features, diagnosis, treatment
2. Peptic ulcer disease: etiology, clinical presentation, diagnosis, treatment
3. Gastritis: classification. Atrophic gastritis: types, etiology, pathogenesis
4. Atrophic gastritis: types, diagnosis, treatment
5. Functional dyspepsia: definition, diagnosis, treatment
6. Inflammatory bowel disease: Crohn's disease: clinical presentation, extraintestinal manifestations, complications
7. Inflammatory bowel disease: Crohn's disease: diagnosis, differential diagnosis, treatment
8. Inflammatory bowel disease: Ulcerative colitis: clinical presentation, classification, diagnosis
9. Inflammatory bowel disease: Ulcerative colitis: differential diagnosis, treatment
10. Celiac disease: etiology, clinical presentation, diagnosis, treatment
11. Irritable bowel syndrome : clinical presentation, diagnostic criteria, classification, diagnosis, treatment
12. Chronic hepatitis B infection: etiology, epidemiology, natural history, clinical presentation
13. Chronic hepatitis B infection: diagnosis, treatment, prevention
14. Chronic hepatitis C infection: etiology, routes of transmission, clinical presentation, diagnosis, treatment
15. Drug-induced hepatitis: etiology, types of injury, diagnosis, treatment
16. Autoimmune hepatitis: classification, clinical presentation, diagnosis, treatment
17. Alcoholic liver disease: etiology, pathogenesis, stages of the disease, clinical presentation
18. Alcoholic liver disease: diagnosis, treatment
19. Non-alcoholic fatty liver disease: risk factors, natural history, clinical presentation, diagnosis, treatment
20. Liver cirrhosis: etiology, pathogenesis, pathogenesis, clinical presentation, classification, diagnosis and treatment
21. Liver cirrhosis complications: portal hypertension: etiology, pathogenesis, clinical presentation

22. Liver cirrosis complications: portal hypertension: diagnosis, treatment
23. Liver cirrosis complications: ascites: etiology, pathogenesis, clinical presentation
24. Liver cirrosis complications: ascites: diagnosis, treatment
25. Liver cirrosis complications: hepatic encephalopathy: pathogenesis, clinical presentation, classification, diagnosis
26. Liver cirrosis complications: hepatic encephalopathy: differential diagnosis, treatment
27. Chronic pancreatitis: etiology, risk factors, clinical presentation, diagnosis
28. Chronic pancreatitis: diagnosis and differential diagnosis, treatment
29. Differential diagnosis of dysphagia
30. Differential diagnosis of abdominal pain
31. Differential diagnosis of jaundice
32. Differential diagnosis of diarrhea
33. Differential diagnosis of constipation
34. Differential diagnosis of nausea and vomiting
35. Differential diagnosis of abnormal liver biochemical tests

**Literature:**

Study materials for IV, V, and VI year provided by the Department of Gastroenterology and Hepatology

A handwritten signature in blue ink, appearing to be 'G. Hakobyan', written over a horizontal line.

Head of Department of Internal Medicine (Gastroenterology and Hepatology)

Associate Professor Gagik S. Hakobyan, MD, PhD
