

Examination questionnaire 2026
Gastroenterology and hepatology

1. Gastroesophageal reflux disease: risk factors, clinical features, diagnosis, treatment
2. Peptic ulcer disease: etiology, clinical presentation, diagnosis, treatment
3. Gastritis: classification. Atrophic gastritis: types, etiology, pathogenesis
4. Atrophic gastritis: types, diagnosis, treatment
5. Functional dyspepsia: definition, diagnosis, treatment
6. Inflammatory bowel disease: Crohn's disease: clinical presentation, extraintestinal manifestations, complications
7. Crohn's disease: diagnosis, differential diagnosis
8. Crohn's disease: treatment
9. Ulcerative colitis: classification, clinical presentation, extraintestinal manifestations, complications
10. Ulcerative colitis: diagnosis, differential diagnosis
11. Ulcerative colitis: treatment
12. Celiac disease: etiology, clinical presentation, diagnosis, treatment
13. Irritable bowel syndrome: clinical presentation, diagnostic criteria, classification
14. Irritable bowel syndrome: diagnosis, treatment
15. Chronic hepatitis B infection: etiology, epidemiology, natural history, clinical presentation
16. Chronic hepatitis B infection: diagnosis, treatment, prevention
17. Chronic hepatitis C infection: etiology, routes of transmission, clinical presentation, diagnosis, treatment
18. Drug-induced hepatitis: etiology, types of injury, diagnosis, treatment
19. Autoimmune hepatitis: classification, clinical presentation, diagnosis, treatment
20. Alcoholic liver disease: etiology, pathogenesis, stages of the disease, clinical presentation
21. Alcoholic liver disease: diagnosis, treatment
22. Non-alcoholic fatty liver disease: risk factors, pathogenesis, including insulin resistance, natural history, clinical presentation
23. Non-alcoholic fatty liver disease: diagnosis, treatment
24. Liver cirrhosis: etiology, clinical presentation, classification
25. Liver cirrhosis: diagnosis and treatment

26. Liver cirrhosis complications: portal hypertension: etiology, pathogenesis, clinical presentation
27. Liver cirrhosis complications: portal hypertension: diagnosis, treatment
28. Liver cirrhosis complications: ascites: etiology, pathogenesis, clinical presentation
29. Liver cirrhosis complications: ascites: diagnosis, treatment
30. Liver cirrhosis complications: hepatic encephalopathy: pathogenesis, clinical presentation, classification, diagnosis
31. Liver cirrhosis complications: hepatic encephalopathy: differential diagnosis, treatment
32. Chronic pancreatitis: etiology, risk factors, clinical presentation, diagnosis
33. Chronic pancreatitis: diagnosis and differential diagnosis, treatment
34. Differential diagnosis of dysphagia
35. Differential diagnosis of abdominal pain
36. Differential diagnosis of jaundice
37. Differential diagnosis of diarrhea
38. Differential diagnosis of constipation
39. Differential diagnosis of nausea and vomiting
40. Differential diagnosis of elevated liver enzymes

Literature:

Study materials for IV, V, and VI year provided by the Department of Gastroenterology and Hepatology

Head of Department of Internal Medicine (Gastroenterology and Hepatology) –

Associate Professor Gagik S. Hakobyan, MD, PhD
