

Professor Siegfried Stefan Bielack is a pediatric oncologist and former head of the Department of Pediatric Oncology, Hematology, Immunology at Klinikum Stuttgart - Olgahospital, Stuttgart Cancer Center. His main interests focus on bone sarcomas, particularly osteosarcoma, and oncology in adolescents. For more than 25 years, he acted as chairman of the Cooperative Osteosarcoma Study Group, COSS. In addition, he was the Pan-European Clinical Trials, ECT, project leader of the European and American Osteosarcoma Study, EURAMOS1, the leader of the bone tumor work package of the European Network for Cancer Research in Children and Adolescents, ENCCA, and the osteosarcoma representative in the European Research Network on Pediatric Cancers, ERN PaedCan.

Stefan Bielack has served as the president of the European Musculo-Skeletal Oncology Society, EMSOS, as the treasurer of the European Society of Pediatric Oncology, SIOPE, and as a board member of multiple other learned societies. Current and past editorial board memberships include Cancer Treatment Reviews, Journal of Adolescent and Young Adult Oncology, and Journal of Clinical Oncology.

Prof. Bielack was a member of the European Society of Medical Oncology, ESMO, sarcoma faculty and a co-chair of the ESMO-SIOPE Joint Working Group on Cancer in Adolescents and Young Adults. He has authored or co-authored some 270 pubmed-listed publications as well as multiple non-listed articles and book-chapters. His publication on prognostic factors in osteosarcoma ranks among the 40 top-cited articles ever in the Journal of Clinical Oncology.

In 2016, Prof. Bielack was awarded the German Cancer Prize (Deutscher Krebspreis) for his research on bone sarcomas.
