To  
The Rector  
Yerevan State Medical University  
Yerevan, Armenia

Respected Rector,

I hope you are doing well.

I am Dr. Lakshmi Priya Harikrishnan from Tamilnadu, India and I am a proud graduate of Yerevan State Medical University, having completed my medical degree from YSMU in 2019.

Today, I wanted to share a piece of happy news with my alma mater.

After graduating from YSMU, I returned to India and pursued my postgraduate training in Obstetrics and Gynecology at Sher-i-Kashmir Institute of Medical Sciences (SKIMS), Srinagar. Recently, I appeared for the INI Super Speciality Entrance Examination (INI-SS) and have secured All India Rank 1 in the MCh Gynecologic Oncology group. I will now be joining AIIMS New Delhi for my MCh training in Gynecologic Oncology.

As I celebrate this achievement, I am reminded of the strong foundation that YSMU provided me. The rigorous academic training and the supportive faculty played a crucial role in shaping my medical career. The education I received at YSMU helped me develop a solid understanding of basic and clinical sciences, critical thinking skills, and the confidence required to excel in competitive examinations and clinical practice.

I also remember the FMGE coaching sessions organized during our course. Though brief, they gave us valuable insight into the examination pattern in India and introduced us to effective methods of studying and approaching competitive examinations. Looking back, those sessions were more helpful than I realized at the time.

Every stage of my career, from clearing licensing examinations to completing postgraduate training and now securing admission to one of India's most prestigious medical institutions, has been built upon the foundation laid during my years at YSMU.

I wanted to share this achievement with you because YSMU will always be an important part of my story. I remain grateful to the university and its faculty for the education, guidance, and opportunities that helped me grow both professionally and

personally.

Thank you for nurturing students from around the world and helping them realize their dreams. It would make me very happy if my achievement could serve as a source of encouragement for current and future YSMU students.

With sincere gratitude and warm regards,

Dr. Lakshmi Priya Hari Krishnan  
YSMU Graduate, Class of 2019  
MD/MS Obstetrics & Gynecology, SKIMS Srinagar  
AIR 1 – INI-SS MCh Gynecologic Oncology Group  
Incoming MCh Resident, AIIMS New Delhi
